# BUNKERING SERVICES

## HOW GTA PETROLEUM LTD. PROVIDES BUNKERING FOR MOTOR VESSELS

GTA Petroleum Ltd. supplies fuel to motor vessels using tanker trucks, ensuring efficient and timely delivery directly to the vessels at the port. Our experienced team coordinates logistics to minimize downtime and optimize the bunkering process, enhancing overall operational efficiency for our clients.

# BUNKERING SERVICES

## WHERE DO WE DO BUNKERING

We provide bunkering services for vessels at all ports in Bulgaria, including

Lom – 1 / 743 KM

Oryahovo – 2 / 678 KM

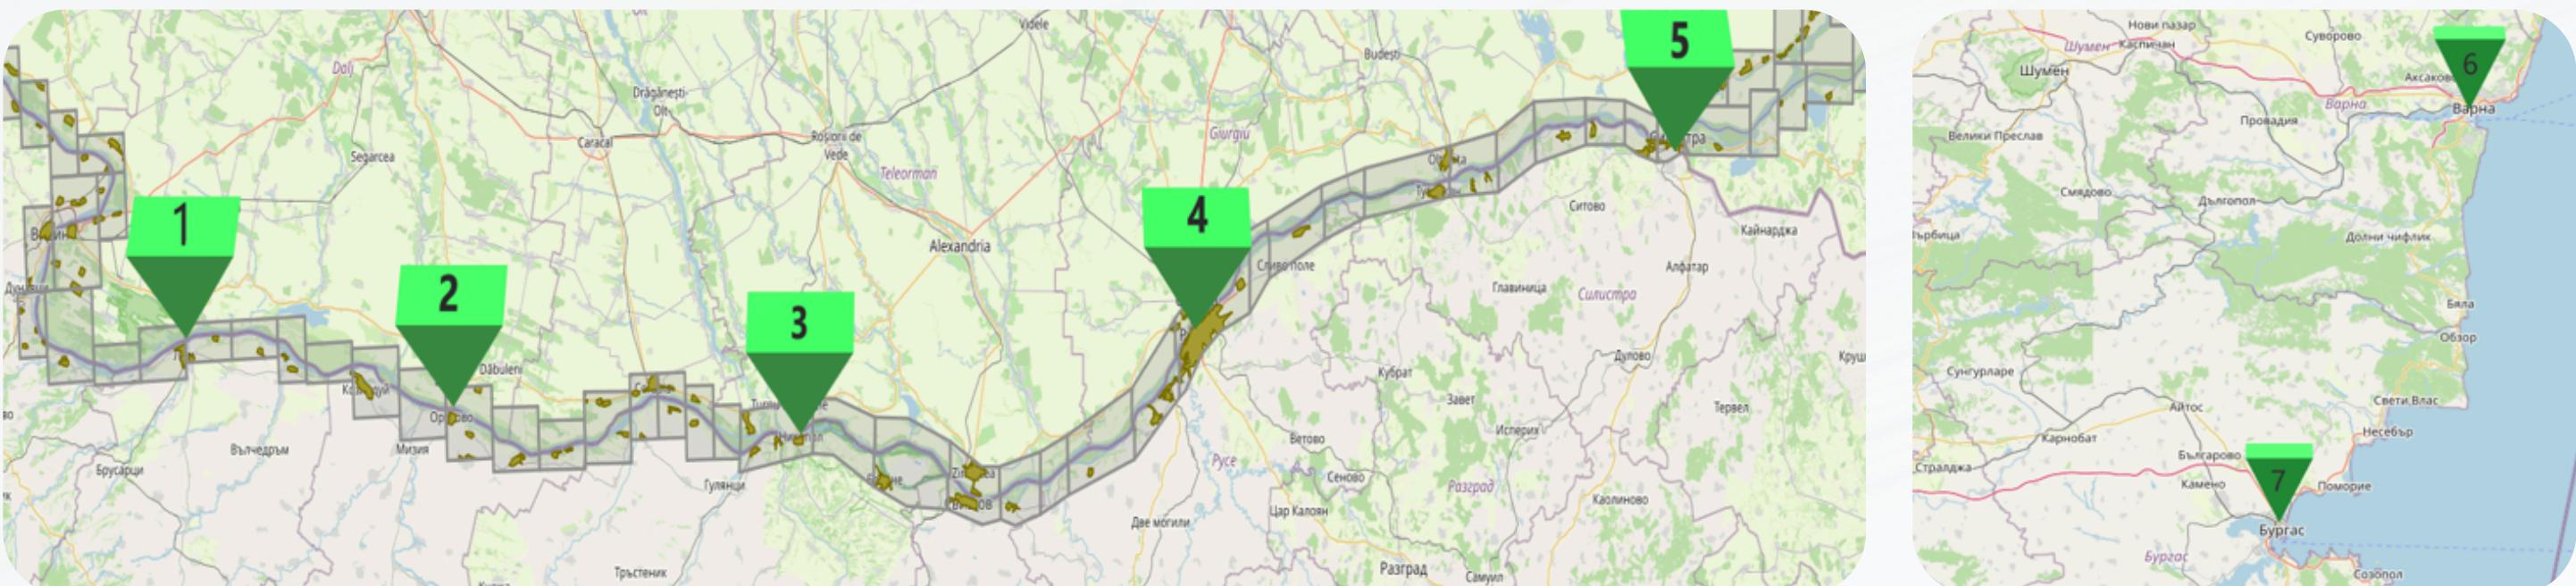

Nikopol – 3 / 598 KM

Ruse – 4 / 490 KM & 489 KM

Silistra – 5 / 380 KM

Varna – 6

Burgas – 7

# BUNKERING SERVICES

## SAFETY PROCEDURES AND STANDARDS IN BUNKERING

For safety reasons, bunkering operations are conducted during daylight hours. We maintain continuous radio communication between the truck driver, who controls the fuel flow, and the person receiving the fuel on the vessel. This ensures a safe and efficient bunkering process while adhering to industry standards.

# AGENCY SERVICES FOR MOTOR VESSELS ON THE DANUBE RIVER

**[GTAPETROLEUM.COM](http://GTAPETROLEUM.COM)**

# AGENCY SERVICES

FOR MOTOR VESSELS ON THE DANUBE RIVER

## The role of the agent in managing motor vessels

- The role of the agent is of utmost importance for ensuring swift and efficient processes when entering and exiting the territory of the Republic of Bulgaria.

## Client support and coordination with various authorities

- The agent will ensure seamless communication between the shipowner and the relevant authorities, including Customs Agency, Border Police, Maritime Administration, and River Control.
- The agent will also assist the ship's crew in every possible way when needed. In summary, the agent is responsible for ensuring the smooth entry, stay, and departure of the vessel and its crew from the territory of the Republic of Bulgaria.

## Documentation and permitting process

- The agent will handle all responsibilities related to submitting the required documentation to the relevant authorities. For this purpose, communication between the agent and the ship's captain is established as early as possible, prior to the vessel's arrival in Bulgaria.

# IMPACT ON SHIPPING EFFICIENCY

## HOW AGENCY AND BUNKERING SERVICES AFFECT SHIP EFFICIENCY

In our work, prompt actions are crucial for both our business and our clients' businesses. We understand that time is money and can often be expensive. The extensive experience of our agents ensures that each process is executed as swiftly as possible.

The agent maintains continuous communication with the ship's crew from the moment the request is submitted until the vessel departs from the territory of the Republic of Bulgaria.
